STATE BOARD OF EDUCATION

REGENTS OF THE MONTANA UNIVERSITY SYSTEM, EX OFFICIO

The State Board of Education consists of eleven members including the Governor, the State Superintendent of Public Instruction and the Attorney General as ex officio members. The Governor appoints, by and with the consent of the Senate, the remaining eight members. These appointments must provide for equal representation between the first and second congressional districts and must assure that no more than four members are from the same political party or organization. The term of office for appointed members is eight years.

The Board, in most cases acting on the recommendations of the State Superintendent, has a number of duties prescribed by law concerning the elementary and secondary schools of the state (e.g., accreditation standards and teacher certification). The control and supervision of the School for the Deaf and Blind also is vested in the Board of Education. The Board serves, as well, as the governing board for vocational education, with the State Superintendent as executive officer.

The Board also serves as ex officio Regents and is vested with the control and supervision of the Montana University System. The Board as Regents also has responsibility for the supervision of the community colleges in the state.

The State Superintendent serves as secretary of the Board of Education, and the executive secretary of the Montana University System serves as secretary of the Board as Regents.

NOTE: New constitutional provisions will alter the Board structure. A board of education, composed of a board of public education and a board of regents of higher education, will increase in membership and will have responsibility for submitting unified budget requests, for long-range planning and for coordination and evaluation of policies and programs for the state's educational systems.

DIRECTORY GUIDE
TO
PUBLIC ELEMENTARY AND SECONDARY SCHOOLS

On the following pages, Montana counties are listed alphabetically. The elementary school districts located in the county are listed in numerical sequence and the high school districts are listed in conjunction with the elementary district in which the high school is located. County high schools are listed immediately following the elementary districts in which they are located.

The information for each school district is divided into five parts: (1) school district data, (2) school administrator and school telephone, (3) school name and address, (4) number of certified staff and (5) number of pupils as of October 1, 1972.

The first column, **School District Data,** lists the school district number, the state office identification code, the classification of the elementary school district, the district's post office address and the chairman's name and address. The school district number appears in bold type and is followed by a four-digit number assigned by the Superintendent of Public Instruction. This identification number is for reference use by staff members and for computer programs of the Office of the Superintendent of Public Instruction. The district classification appears in parentheses. A first class district has a population of 6,500 or more; a second class district has a population of between 1,000 and 6,500; and a third class district has less than 1,000 residents. The community shown under the school district number is the post office address for all mailing purposes in the district unless another post office address is indicated under an individual listing. The person named in this column is always the chairman of the board of trustees.

When an elementary district and a high school district operate an accredited junior high school, the "Junior High School" identification will appear in the first column.

Joint school districts are identified in the first column by listing the counties involved in the district and the county of the school's location.

The second column, **School Administrator** and **School Telephone,** lists the name of the school administrator and the school telephone number of the administrator. The "Superintendent" is the administrator of the school district listed in the first column. The "Principal" or "Supervising Teacher" is the administrator of the school listed in the third column. If a school district does not have an administrator, only the telephone number of the school is shown.

The third column, **School Name** and **Address,** identifies each operating school in the school district and the address of the school.

The fourth and fifth columns, **Certified** Staff and **Pupils,** lists as of **October 1, 1972** the total certified staff members (teachers, principals, superintendents, librarians, counselors, instructional supervisory staff and administrative assistants) and pupils for each school listed in column three. The numbers listed opposite the boldface "**Totals**" are the total number of certified staff and pupils in each school district that contains more than one school. The "Certified staff serving multiple schools" listing is the total of certified staff members serving more than one school in a district. A school noted as "Non-Operating" is one that is closed during the 1972-73 school year.

An alphabetical index in the back of the directory lists all Montana school districts including mailing addresses, counties and the page number for directory listing.
